Posifa Technologies introduces vacuum gauge

Based on the Pirani vacuum sensors, with Posifa we offer a complete solution for vacuum measurement. The Pirani vacuum gauges PVC6100 reach a measuring range from 10 E-4 Torr up to 760 Torr ambient pressure. With industry connections DIN ISO KF16 and analogue output 0...10V, PGS500, TTR91, APG100-XM, APG100-XLC and 925 can be exchanged without technical adaptation.
